# Stele Concrete & Asphalt

Concrete, Asphalt and Cutting & Coring Services

## Asphalt

Asphalt is a complex and specialized craft, especially in a city with severe weather like Edmonton. Harsh winters and hot summers make careful installation a must, along with regular repairs and maintenance.

## Concrete

---

We are an experienced team able to meet all of your concrete needs, including cutting, coring, demolition, and replacement services. On residential and commercial projects of all sizes, we offer a wide range of concrete services.

## Professional construction services with architectural expertise

Founded and based in Edmonton, Stele is what happens when you combine years of industry experience with a passion for constant innovation and progress.

We know our success is largely thanks to the local relationships we've built. We take pride in our work and are always looking for ways to better serve Albertans. We handle all aspects of your project with this mission in mind – from design, to staffing, to on-site management, we put people first.

Great communication is at the heart of everything we do. We work with you to establish clear expectations and goals from the start of your project. We'll help you create realistic timelines and budget plans, so you know exactly what to expect and there are no surprises along the way.
